TO WHOM IT MAY CONCERN

BASALT 500 UNDERGROUND TIE – SYSTEM IMPROVEMENT PROJECT

This letter is to inform you about construction work which is planned for your neighborhood in April 1st 2020. Holy Cross Energy needs to install new conduits, vaults, and transformers as shown on the attached map. Advanced Underground Construction, hired by Holy Cross Energy, is trenching and installing conduit at a depth of 4'. After that work is complete, a Holy Cross Energy crew will follow with cable pulling equipment to pull electric cables thru the new conduit system. You will be contacted by phone if there will be a need for a scheduled outage.

If you have any questions, please call Allen Goad at Holy Cross Energy, 970-947-5433 office, or send an email to agoad@holycross.com.
