

**Town of Basalt**

**Addendums to Temporary Modification of Premises – Liquor License Application**

**1. Seating Diagram:** The State would like to see the existing outside seating plan, and the new/proposed seating plan. Please create a 8.5” x 11” drawing of the premises with the existing liquor service area (including indoor), then add and clearly identify the proposed new seating areas. Include dimensions, and ingress/egress.

**2. Written Control Plan:** Describe how you intend to control the premises. A control plan details the boundaries of the licensed premises, ingress/egress, signage, hours of operation, and how you will prevent sales to underage or intoxicated persons.
